

## Major and Minor Selection Form

Please fill out the form with your choice of major and minor courses. You need to do this at the beginning of your programme and if you are on the Workroom you will not be able to upload work until your major and minors have been logged in our database. If you are a DD student you need to let your mentor know your major and minor choices. On-site you need to let Programme Support know. You can post, email, deliver physically or telephone in your choices. If at any time you need to change your major and minor courses this should be discussed with your mentor (DD) or Programme Support (on-site).
