## Learning Styles Profile

At The Learning Connexion we are interested in the ways that you think you learn best and your goals for the programme. This will help us to shape your feedback to suit your personality and learning styles. Everyone is different and some people respond to a bold, challenging critique, whilst others thrive under a softer, more personally encouraging style. We invite you to think about your own personal style of learning and to complete this form and send it in with your first set of work. We also suggest discussing your preferences with your new mentor when they are assigned. If your needs change over time, you should let your mentor know, so they can adapt their feedback approach to best agree with you.
