

Playing with fire is fun - right? Sure it can be dangerous, but done right it's also a great way to heat up those creative juices and make some wonderful, enduring pieces of art or practical items for daily use. Think ... bronze sculpture, wax models, kitchen knives, steel constructions. Processes such as mould making, sand casting, lost wax casting and forging are available here. Welding techniques are not taught in this class but students with prior experience and competence using welding equipment are welcome to use those facilities in this class. Suitable for all levels.

---

### Content

Class content: Introduction to Hot Arts facilities and equipment \* Safe use of facilities and equipment \* Set your own brief and projects - tutor is available to help you choose materials and techniques to help you achieve your goals

### Objectives

Objectives \* Complete projects by creating in the Hot Arts studios - knife making, metalworking, sculpture in a variety of materials, sand and lost wax casting \* Learn safe and effective use of tools and equipment

**Class Type:** Mains Class  
**Tutor:** Leo Semau

Every Monday (06 May - 21 Jun)

9:30am - 4:30pm

Materials cost: \$10  
Casual Students: \$630.00  
+ material

Hot Arts 1 - Fabrication,  
Forge, Foundry

12 (Max number of  
students)

### Required Materials:

Required Materials: Please bring a visual diary and drawing tool. If you have an idea of what you want to make that would be great, if not that's ok too as we will cover the kinds of projects and associated metals that you can explore in the class on the first day.

You can purchase your art supplies  
from our Materials Shop online
